

# Wanted

Todrick Hall

Now just so we're clear  
The one you waited for is right here  
I hope you're ready for it my dear  
Don't speak the truth too loudly, might hear  
'Cause you get one shot, I hope your aim is steady  
'Cause you've got the whole world watching ready  
Or not, your heartbeat heavy handed  
Won't stop

So tell me how bad, tell me, tell me how bad are you?

Wanted, 'cause you're wanted  
Are you willing to fight, willing to die  
For it? 'Cause you're wanted  
Ready to leave it on the line  
For it? 'Cause you're wanted  
Nowhere to run, nowhere to hide  
From it, 'cause you're wanted  
You're wanted

How bad do you want it?  
How bad do you want it?  
How bad do you want it?  
You want it

You can play the game or you can watch them slander  
Your name, the truth, it doesn't matter  
The flame is being fuelled by chatter but don't change  
When you're on the run no turning back  
The damage is done, you're nothing but a savage  
Someone, no going back to where you came from

So tell me how bad, tell me, tell me how bad are you?

Wanted, 'cause you're wanted  
Are you willing to fight, willing to die  
For it? 'Cause you're wanted  
Ready to leave it on the line  
For it? 'Cause you're wanted  
Nowhere to run, nowhere to hide  
From it, 'cause you're wanted  
You're wanted

How bad do you want it?  
How bad do you want it?  
How bad do you want it?  
You want it

Plaster my pictures so the world will not forget my face  
I guess being infamous is not the same as fame  
Assign me words you know my reputation can't escape  
You point your finger long enough, you'll find someone to blame  
(Wanted, you're wanted) My character in flames  
(Wanted, you're wanted) But I will not be ashamed  
(Wanted, you're wanted) Just don't forget my name  
I did it once, and I'd do it all again

Wanted, 'cause you're wanted  
Are you willing to fight, willing to die  
For it? 'Cause you're wanted  
Ready to leave it on the line  
For it? 'Cause you're wanted  
Nowhere to run, nowhere to hide  
From it, 'cause you're wanted  
You're wanted

How bad do you want it  
How bad do you want it  
How bad do you want it  
You want it
