

# All Creation

together PANGEA

Smoking drugs to get away  
I was with her once but she gone away

Is it wrong to wanna hide  
It feels so right and I never died  
I didn't die

And the wind it howls and the darkness grows  
I loved her once but that's how it goes

Tonight 's the night  
It's fucking cold  
And it's goddamn time that I let her go  
I'm letting her go

And the wind it howls and the darkness grows  
I loved her once but that's how it goes

But that's how it goes  
But that's how it goes  
It's how it goes
