

Misery

together PANGEA

It's a full time drag it keeps me awake
I got a ten ton load my mind might break
And I just can't stay
Ah baby, anyway

I'm pleased to please say lay down slow
We got endless time and nowhere to go
Let me ease your mind
Ah baby, anytime

Misery, misery, misery, misery, death
Misery, misery, misery, misery, death

A deep dark lake to shake me awake
A big grey cloud to freeze my face
And I want my phone
Baby, I'm not alone

I steal to live and I live to steal, yeah
I'm seizing up behind the wheel
But I can't die yet
I want a cigarette
Yeah

Misery, misery, misery, misery, death
Misery, misery, misery, misery, death
Misery, misery, misery, misery, death
Misery, misery, misery, misery, death
