

## Nervous

together PANGEA

I'll never really know  
How the story ends I suppose  
Gotta let it go  
Getting drunk in the car for the show

Can't go far  
Cause it's right where you are

Always stuck at home  
I've been trying to connect to a phone  
Slippin' away  
Can't keep track of the time or the day

Can't go far  
Cause it's right where you are

It makes me nervous  
It makes me wanna get high  
Nothing can hurt us  
Won't be afraid till I die

Can't go far  
Cause it's right where you are

It makes me nervous  
I feel it passing me by  
All things desert us  
Can't be afraid till I die

Can only save yourself  
You never really had to get on  
Can only save yourself  
You were always really no one

It makes me nervous  
It makes me wanna get high  
Nothing can hurt us  
Can't be afraid till I die

Can't go far  
Cause it's right where you are

It makes me nervous  
I feel it passing me by  
All things desert us  
Can't be afraid till I die
