

# River

together PANGEA

Take it outside to the beat of the earth  
Beat back the waves and beat back your birth  
To be, to best something

And vital is the talk, is vitality  
Drinking 40's in the street means losing a day  
But so what? You're bound to lose some things

Now you're bombing down the street like it's a fucking parade  
But when it all dries up, you're gonna feel the pain  
Of excess, of waste, of wanting

Looking at the river 'cause the river can run  
Looking at the river 'cause the river can run  
Looking at the river 'cause the river it can run  
Looking at the river 'cause the river can run  
Looking at the river 'cause the river can run
