I used to promise you I keep you out my lyrics  
You gon' hate me even more when you hear this

I don't listen to my homies  
I'm distracted what they told me  
You just with me for the lifestyle  
I'm just with you 'cause I'm lonely  
But it's okay if we got love  
Everything's okay if we got love  
Money and fame make me feel so tough  
'Til I break your heart and I lose your trust  
Break your heart and I lose your trust  
Break your heart...

Ay video shoot, women all on me  
Pictures get posted, you start to scold me  
I try to explain, you just insult me  
My ego's telling me that I'm holy  
And I don't need you stress, so I end it with you  
I fuck half the bitches from the video shoot  
But when they leave I just thinking of you, just thinking of you

Don't leave me alone  
I can't be controlled when I'm on my own  
When I'm on my own  
Just tell me you're gone, tell me you moved on  
Then I let you go, then I let you go

How'd I end up here? Successful boy chose the best career  
A thousand in the crowd, but none back here  
I get on stage and sell my tears  
Fans clap and then they'd leave  
Man this life is just a tease, I'm not good at appreciating the moment  
You're the one who helped me  
A slave to my ego, so I fucking let you leave, why the fuck I let you leave?

Don't leave me alone  
I can't be controlled when I'm on my own  
When I'm on my own  
Just tell me you're gone, tell me you moved on  
Then I let you go, then I let you go

I know you got another dude  
Doing everything I'm supposed to do  
Just say you don't but I know you do, I know you  
Colorado's two thousand miles away  
Girl, I ain't far, I'm just a flight away  
When Mac died, you texted me  
Did it just to check on me  
You know how much I idolized him  
How much he affected me?  
You told me he reminded you of me  
Just with different habits and different trends  
Truth is when you left, I start to drink again  
Divine Feminine stay on repeat  
Our best friend got a girlfriend, she's so sweet  
Every weekend they invite me to a movie

And I tell them that I'm busy, but I'm not  
I'm just so jealous when I see 'em  
I'm just feeling I'm missing my team, missing my team  
They congratulate me on living my dreams  
But as I'm winning I'm just losing what matters to me  
I'm just begging you, please

Don't leave me alone  
I can't be controlled when I'm on my own  
When I'm on my own  
Just tell me you're gone, tell me you moved on  
Then I let you go, then I let you go  
Don't leave me alone  
I can't be controlled when I'm on my own  
When I'm on my own  
Just tell me you're gone, tell me you moved on  
Then I let you go, then I let you go
