

## Burning Down Paradise

Tokyo Blade

Do you believe in God in heaven  
Do you believe or have you lost the faith  
Did you ever try getting blood from a stone  
No-one hears you screaming when you're standing alone

Nothin' else to give, we're killin' ourselves to live  
It's a crime and we're wasting time  
All the young dudes with serious attitudes  
It's a crime and we're wasting time  
I want what's yours and you want what's mine  
It's a crime and we're wasting time  
Little of what is said makes sense in my head  
It's a crime and we're wasting time

Burning down paradise  
Like taking matches and gasoline  
And placing it in a child's hand  
Burning down paradise  
Is it too late (too late)  
Burn...  
We're burning paradise

Man with a gun talks about revolution  
Do you really believe that it's a solution  
Does it make you laugh when you hear them lying  
Do you cry like a child 'cos you're scared of dying

He's the king of the alley, his queen's the gutter cat  
It's a crime and we're wasting time  
Man bleeding in the rain we ain't got time to feel his pain  
It's a crime and we're wasting time  
There's a man with a grin says he's free from sin  
It's a crime and we're wasting time  
We're sliding into mud...man I've had enough  
And we're wasting time
