

## Big Difference

Tokyo Police Club

the quiet kid has come to stay  
what do you say?  
he says I'm lonely, says I'm lonely

I'll tell you everything I know  
what do you know?  
he says I'm hopeless, says I'm hopeless

and that's why I can't send you Christmas cards  
it's why I had to keep you in the dark  
less big words and more exclamation marks

the little king is locked away (locked away!)  
swallow the key  
he says he's alright, but not sorry

I'll tell you everything I saw (what do you see?)  
a hundred and one  
he says it's alright, but I know what I've done

and that's why I can't send you Christmas cards  
it's why I had to keep you in the dark  
less big words and so ...

charmed but destroyed  
opens up the window  
bored and overwhelmed  
always overwhelmed  
but that's the best part, that's the best part

'cause I've been taking your advice  
like a Speak & Spell  
but I could get to know you better  
and never know you well

and that's why I can't send you Christmas cards  
it's why I had to keep you in the dark  
less big words and so ...

charmed but destroyed  
opens up the window  
bored and overwhelmed  
always overwhelmed  
but that's the best part, that's the best part
