

## Gonna Be Ready

Tokyo Police Club

I am gonna be ready  
Still number one  
Never let anybody touch you  
Cold, colder than anyone  
You feel it all a moment later than I do

And every time I drive in the city,  
I think see you turning around  
Upset incredible headache  
How bad? I am calling a medic

I am gonna be ready

Wait for the heat to break  
Your doing fine on your own  
Cold, colder than anyone  
You feel it all a moment later than I do

And every time I drive in the city,  
I think see you turning around  
Upset incredible headache  
How bad? I am calling a medic

I am gonna be ready  
Let down I keep it together  
Upset, I have never been better

I gonna be ready

Living in the mind of girls  
Who would never say shit to me now  
As pretty as they were in high school  
I wonder if I'll see them around, around

Upset incredible headache  
How bad? I am calling a medic

I gonna be ready

Let down I keep it together  
Upset, I have never been better  
I gonna be ready
