

Ontario

Tokyo Police Club

Drop my love in a deep dark drain
And it's running to the river in the pouring rain
Oh my love won't you come back again
Lost my love in a big black hole
And the scientist discovered that it eats your soul
Oh my love wants something it just can't hold

Heard my love in a long lost tone
And I'll never understand
All the things it's done
All my love will [?] tonight

Come and take me now
I got no business in this town
And my friends are just a way of killing time
I didn't see it go
But when the feelings back I'll know
Her heart is always chasing butterflies
Ontario, there's no more butterflies
In Ontario

Sowed my seed in the sodden soil
And I watch of my wrinkles and my wings and coil
Oh my love it sounds like this is goodbye
Did you ever want me?
Did you ever know me?
Did you ever really hold me?

Come and take me now
I got no business in this town
And my friends are just a way of killing time
I didn't see it go
But when the feelings back I'll know
Her heart is always chasing butterflies
Ontario, there's no more butterflies
In Ontario, there's no more butterflies
But wait
I'll catch a [?]
Come and take me now
I got no business in this town
And my friends are just a way of killing time
I didn't see it go
But when the feelings back I'll know
Her heart is always chasing butterflies
Ontario, there's no more butterflies
In Ontario, there's no more butterflies
In Ontario
