

# Tender

Tom Aspaul

Ooh I know, know that it's over  
Ooh I know, know that it's over  
You could really tell  
I couldn't afford the therapy  
You could really tell  
That you didn't have the time  
And even when it felt  
Like I was feeling this jealousy  
You could really tell  
I could never, ever cry no  
Ooh I know, know that it's over  
And now that it's over

Only then I realised  
I could see it in your eyes  
Sleepwalking through our lives

I don't think that I could start again  
You know it's gonna be a cold September  
I don't wanna show this heart again  
The way you left it feels a little tender  
We gotta do, what we gotta do  
But it's still a little tender  
We gotta do, what we gotta do  
But it's still a little tender

I know, know that it's over  
Know that it's over  
You could really tell  
You were from another family  
But we made it work  
And I'm happy for the time

And even when it felt like  
You were from another planet  
You cannot say we didn't try

I don't think that I could start again  
You know it's gonna be a cold September  
I don't wanna show this heart again  
The way you left it feels a little tender  
We gotta do, what we gotta do  
But it's still a little tender  
We gotta do, what we gotta do  
But it's still a little tender

Only then I realised  
I could see it in your eyes  
Sleepwalking through our lives

I don't think that I could start again  
You know it's gonna be a cold September  
I don't wanna show this heart again  
The way you left it feels a little tender  
We gotta do, what we gotta do  
(I don't think that I could start again)  
But it's still a little tender

We gotta do, what we gotta do  
(I don't wanna show this heart again)  
But it's still a little tender
