Ah hah ah  
Ah hah ah  
Ah hah ah

They replaced me  
Upgraded to a big machine  
Recording everything on screen  
Data control  
Copied my soul  
So they can tell me who I am

Don't wanna wake up to find that I'm wearing it now  
(Their words, their vibe, it's not mine)  
I won't be named as some stranger inside of a crowd  
(Not me, nah ah, not this time)

They speak mainstream  
With no truth implied  
The loudest voice - it has more to hide  
What's the mission?  
Tell me, what seed are you planting?  
What are your intentions at play?  
I don't wanna be an impression of you  
And I can't be free  
(Living in your belief)  
I am the glitch in your program  
I won't be stripped of who I am

In a box  
Rewarded when we're quiet enough  
Distracted by the shiny stuff  
Unverified  
Now streaming live  
Version 2.0 of life
