

# Human Interaction - It's Easy!

Tom Cardy

Human interaction, it is so easy  
Ask them and talk about what they're interested in  
Human interaction, it is so easy  
Even for you, just ask them what they do

I'm a vet  
How many bees do you think that I could fit inside of a Dachshund?  
I'm a chef  
Broccoli's cool, how many bees do you think that I could fit inside of a Dachshund?  
I won a shop  
That must be nice, does your shop sell dogs with bees on the inside?  
Environmental lawyer  
Save the trees, I'd like to own a Dachshund that's full of bees

Human interaction, it is so easy  
Ask a question, listen, and then talk about them  
Human interaction, it is so easy  
Now tell them something that you like but maybe don't mention them

I'm a teacher  
You can't put the dogs inside the bees because there's too many bees  
I'm a psychologist  
Yeah, it's not cruel, because the bees and the dog are friends  
I'm a nurse  
People genetically engineer their babies but I can't put a single bee inside a dog?  
I'm not a cop  
It's not actually illegal to talk a-, uh, wait, did you say you're a cop?  
I'm not a cop

Human interaction, it is so easy  
Maybe stop talking about putting bees in a dog  
Human interaction, nobody told me  
All you gotta do is find someone as weird as you
