

## Red Flags (Reverse Style!)

Tom Cardy

The date started off so well  
Begin my night not expecting the fright of my life (Ah!)  
He was perfect from what I could tell  
How could I not see the danger right in front of me?

My favorite food is fish (Woah)  
Baby, that's my favorite too  
I love cartoon dogs  
Baby, I love Scooby Doo  
Hey boy, what's your favorite film?  
He said, "the best movie of all  
A masterpiece of art called"

Human Centipede  
Human Centipede  
I think that I'm gonna get murdered tonight  
Human Centipede  
Not ironically  
He said, "The costume design was a highlight"  
I like it for the plot  
Tell me what the plot's about  
German doctor sews three people arse to mouth. Cool...  
Human Centipede  
Please, God, save me  
I think that's a red flag, I don't want to get stabbed

He said, "Human Centipede is a tour de force"  
I think, "Holy shit, I'm gonna be the main course"  
He said, "I admire the narrative of character growth"  
I try to get the waiter's attention by blinking in morse code

Why are you blinking so much?  
I've got something in my eye  
Here, let me get it out  
No thank you, I don't wanna die  
Bonjour, ma'am was blinking at us  
Is this because your date is a freak?  
"No." Very good, bon appétit

Stop hiding behind your silly made-up red flag  
To not take a chance on the best relationship you never had  
Maybe you're right and I'm looking for excuses  
My heart's got bruises, but I'm ready to choose this love

You could be my world, the love of my life  
One day we'll get married and be husband and wife  
With a tasteful ceremony, and the wedding of our dreams  
Only if the wedding is themed  
Tell me what the theme's gonna be!

Human Centipede  
Human Centipede  
That way we can save on the catering bill  
Human Centipede  
Only one mouth to feed  
If you are the maid of honour, you know the deal (Ass)

I can finally open myself up to love  
And I can finally sew a mouth to a butt
