

## London Lights

Tom Chaplin

We walk along the river  
Under the London Eye  
It's seen a million lovers  
It's watching us tonight  
Angels in their realm of glory  
Never saw a night like this  
They'll pay witness to our story  
On Albert Bridge for our first kiss

Up to Trafalgar Square  
Bright lights upon the tree  
Shining on the smiling faces  
Shine down on you and me  
Whispered on the wind, we hear  
The choir of St. Martin sing  
It came upon a midnight clear  
Songs of old, the [?]

I don't need star-studded skies  
I don't need those glitzy nights  
When I see the London lights  
Yeah, when I see the London lights, oh-oh-oh  
Reflected in your eyes

For all the violence we see  
For all the mindless suffering  
Here we stand with this town  
There's still love to be found

So I don't need star-studded skies  
I don't need those glitzy nights  
This old town is all I need  
A busy street's for you and me  
Oh, when I see the London lights  
Oh, when I see the London lights, oh-oh-oh  
Reflected in your eyes  
In your eyes  
In your eyes  
In your eyes
