

# Careless War

Tom Gregory

I thought you had a halo  
I thought you were everything  
I said I follow you where you go  
But I'm tired of giving in  
And now I know what you do oh oh  
All you ever, ever say it's not true ooh ooh  
I thought you had a halo  
I thought you were everything

Lights we hide behind oh it's hard to find us  
Laying in the fire  
Blinded by the highs  
Beaten by our love

I don't wanna be a passenger in a careless war  
I don't wanna be a foreigner standing by your door  
And oh God  
I'm shackled by the storm  
I don't wanna be a passenger in a careless war

I lost sleep on your pillow  
Playing games, I'd never win  
I said I'd follow where you go  
But I'm tired of giving in  
Now I know what you do  
All the lies on lies they're cruel  
I lost sleep on your pillow  
Playing games I'd never win

Lights we hide behind oh it's hard to find us

I don't wanna be a passenger in a careless war  
I don't wanna be a foreigner standing by your door  
And oh God  
I'm shackled by the storm  
I don't wanna be a passenger in a careless war

I don't wanna be a passenger in a careless war  
I don't wanna be a foreigner standing by your door  
And oh God  
I'm shackled by the storm

I don't wanna be a passenger in a careless war  
I don't wanna be a foreigner standing by your door  
And oh God  
I'm shackled by the storm  
I don't wanna be a passenger in a careless war
