

Far Away

Tom Gregory

Slow me down
I can hear my heartbeat
Racing through my chest
Hate goodbyes
But this don't mean it's over
See you when we're older

We've been running our lives out
But take a look at what we've found
Something special in between us
Tell me that you love me

Even though you're far away now
I will never let you down
Far away somehow
I don't even have a doubt
'Cause I see us at sixty-three
Screaming out to Black Eyed Peas
But hey, for now tell me that you love me
Even though you're far away

Far away
Oh

Slow me down
I can hear my heartbeat
Racing through my chest
Hate goodbyes
This don't mean it's over
See you when you're older

We've been running our lives out
But take a look at what we've found
Something special in between us
Tell me that you love me

Even though you're far away now
I will never let you down
Far away somehow
I don't even have a doubt
'Cause I see us at sixty-three
Screaming out to Black Eyed Peas
But hey, for now tell me that you love me
Even though you're far away

Far away
Far away
Far away

Even though you're far away now
I will never let you down
Far away somehow
I don't even have a doubt
'Cause I see us at sixty-three
Screaming out to Black Eyed Peas
But hey, for now tell me that you love me
Even though you're far away

Far away
Far away
Far away
Even though you're far away
