

# Forget Somebody

Tom Gregory

Are we fallin, cause we climbed too high?  
Are we frozen underneath the lights  
You're out of focus am I out of your mind  
Right now I'm feeling like we're running blind

Too many broken falls  
That leave us on the floor  
Losing all control  
Going round and round again  
It can't be how it ends  
You gotta know

I don't want just somebody  
If that somebody ain't you  
I don't want you without me  
And learn what it's like to forget somebody  
I don't want just somebody  
If that somebody ain't you  
I don't want you without me  
And learn what it's like to forget somebody

(That somebody ain't you...  
It's like to forget somebody  
That somebody ain't you...)  
And learn what it's like to forget somebody

This kind of love is so unusual  
I know it's crazy but it's beautiful  
Getting wasted getting out of our minds but  
It doesn't matter when it's you and I

Too many broken falls  
That leave us on the floor  
Losing all control  
Going round and round again  
It can't be how it ends  
You gotta know

I don't want just somebody  
If that somebody ain't you  
I don't want you without me  
And learn what it's like to forget somebody  
I don't want just somebody  
If that somebody ain't you  
I don't want you without me  
And learn what it's like to forget somebody

(That somebody ain't you...  
It's like to forget somebody  
That somebody ain't you...)  
And learn what it's like to forget somebody

I don't want just somebody  
If that somebody ain't you  
I don't want you without me  
And learn what it's like to forget somebody
