

Let It Be History

Tom Gregory

If you open it up, it's gonna hurt the same
You can wash all the tears but you can't wash all the pain
I told myself you gotta lock the door
It's good for your heart and it's good for your soul

I say it is what it is, you can lie to yourself
But the truth is it hurts much more

Let it be, let it be history
Let's not talk about it
Let it be buried underneath
Let's not talk about it
Let's not talk, talk about it
Let's pretend that we never did
Woah oh, let it be, let it be history
Let's not talk about it

Let's not talk about it
Let's not talk about it

If we open it up, there's only us to blame
No way we're going back, we're gonna make this change
I know myself and you're the only one
You're good for my heart and you're good for my soul

I say it is what it is, you can lie to yourself
But the truth is it hurts much more

Let it be, let it be history
Let's not talk about it
Let it be buried underneath
Let's not talk about it
Let's not talk, talk about it
Let's pretend that we never did
Woah oh, let it be, let it be history
Let's not talk about it

Let's not talk about it
Let's not talk about it

Let's not talk, talk about it
Let's pretend that we never did
Woah oh, let it be, let it be history
Let's not talk about it

(Let it be, let it be history) Let's not talk about it
(Let it be buried underneath) Let's not talk about it
Let's not talk, talk about it
Let's pretend that we never did
Woah oh, let it be, let it be history
Let's not talk about it
