

# Never Look Back

Tom Gregory

Should we let our heart break while we wait for the moment  
And hold on till we see where it's goin'?  
God knows you and I could be golden  
No, we'll never look back, no, we'll never look back  
(One, two, three, four)

Super soul, chemicals, back and forth  
Never know you needed me (One, two)  
Running fast down that hill, lose control  
Fall until you know, you know, you know

And I wanna reach out to your love (Your love, your love, your love)  
Yeah, I wanna reach out to your love  
(Hello, hello, hello)

Should we let our heart break while we wait for the moment  
And hold on till we see where it's goin'?  
God knows you and I could be golden  
No, we'll never look back, no, we'll never look back

No, we'll never look back, no, we'll never look back  
No, we'll never look back

Beautiful antidote  
Pushing life through my bones slowly  
Lightning bolt flashing by  
You and I, neon sky, now I know, I know

And I gotta reach out to your love (Your love, hello, your love, hell  
o, your love)  
And I wanna reach out to your love  
(Oh, hello, oh, hello, oh, hello)

Should we let our heart break while we wait for the moment  
And hold on till we see where it's goin'?  
God knows you and I could be golden  
No, we'll never look back  
Should we let our heart break while we wait for the moment  
And hold on till we see where it's goin'? (See where it's goin')  
God knows you and I could be golden (I could be golden)  
No, we'll never look back, no, we'll never look back

Show me somethin', show me somethin'  
Show me somethin', oh, oh, oh, oh  
Show me somethin', show me somethin'  
No, we'll never look back, no, we'll never look back
