Picture this
Picture us
Tell me now
Enough's enough

So help me, I can't bear these nights alone
And I just kick myself 'cause you could give me all I need
But I still run, lose my breath
Another day will come and it will go

Woah oh

Why don't we take pictures like we used to?
Like we always used to
I just need your photo now
Why don't we take pictures how we used to?
God knows that I miss you
I just need to tell you now

'Cause I know, you know
We should never throw this all away
I know, you know
Maybe we can fall

Maybe we can fall
Maybe we can fall
Maybe we can fall
Maybe we can fall

Picture this
Picture us
Tell me, love
Is that enough?

We go by
Things inside
Tell me now
Would you go down for me?

So help me, I can't bear these nights alone
And I just kick myself 'cause you could give me all I need
But I still run, lose my breath
Another day will come and it will go

Woah oh

Why don't we take pictures like we used to?
Like we always used to
I just need your photo now
Why don't we take pictures how we used to?
God knows that I miss you
I just need to tell you now

'Cause I know, you know
We should never throw this all away
I know, you know
Maybe we can fall

Maybe we can fall
Maybe we can fall
Maybe we can fall
Maybe we can fall

So help me, I can't bear these nights alone
And I just kick myself 'cause you could give me all I need
But I still run, lose my breath
Another day will come and it will go

Woah oh

Why don't we take pictures like we used to?
Like we always used to
I just need your photo now
Why don't we take pictures how we used to?

Maybe we can fall
Maybe we can fall
Maybe we can fall
