

# Cool With That

Tom Grennan

Oh-oh, oh-oh  
Oh-oh, oh-oh

Midnight, riding in an elevator  
Three friends snapping like we're alligators  
Smoke out, stimulator  
Oh, the fire house is doing its thing

Lipstick, walking like a dominator  
Two words, somehow you're my life saver  
That's it, it's forever, I know you feel the same

And I'm not used to this  
Feels like movie shit  
I guess we're doing it  
So here we go

Some call it magic, some call it mad  
Some call it stupid, but I'm cool with that  
Some call it crazy, some call it fast  
As long as you're with me, I'm cool with that

I'm cool with that  
I'm cool with that

Skin deep, this is more than physical  
Trust me, the physical's a miracle  
Handstands, every night like oh, I, I

When our language intertwines  
Your emotion into mine  
I feel alright for the first time in my life

Some call it magic, some call it mad  
Some call it stupid, but I'm cool with that  
Some call it crazy, some call it fast  
As long as you're with me, I'm cool with that

I'm cool with that  
I'm cool with that  
I'm cool with that  
I'm cool with that

I'm not used to this  
Feels like movie shit  
Guess we're doing it, oh yeah  
I'm not used to this  
Scared of losing it  
That's how good it is, so here we go

Some call it magic, some call it mad  
Some call it stupid, but I'm cool with that  
Some call it crazy, some call it fast  
As long as you're with me, I'm cool with that

I'm cool with that  
I'm cool with that

I'm cool with that  
I'm cool with that
