

Crown Your Love

Tom Grennan

I guess I must just be a lucky man
I didn't see it, but I understand
Oh, it took some time, but here I am
Sometimes stars align

I'm not the kind to make it easy
If I say the wrong things, I don't mean them
Don't lose faith, please stand by me
'Cause sometimes stars align

Can I hold your hand
And crown your love forever?
No matter where we land
We'll land there together
Can I hold your hand
And crown your love forever?
'Cause you know when you know
So I won't let you go nowhere

I'm all for plans and keeping promises
I'm all for loving if it feels like this
Oh, it took some time, but I made that wish
Sometimes stars align

Can I hold your hand
And crown your love forever?
No matter where we land
We'll land there together
Can I hold your hand
And crown your love forever?
'Cause you know when you know
So I won't let you go nowhere

Can I hold your hand
And crown your love forever?
No matter where we land
We'll land there together
Can I hold your hand
And crown your love forever?
'Cause you know when you know
So I won't let you go nowhere

Wherever it leads, let's go there
You and me could be something
Wherever it leads, let's go there
'Cause you know when you know
So I won't let you go nowhere

Can I hold your hand
And crown your love forever?
No matter where we land (No matter)
We'll land there together (Where we land)
Can I hold your hand (Can I? Can I?)
And crown your love forever?
'Cause you know when you know (Oh)
So I won't let you go nowhere

Can I hold your hand (Can I hold your hand)
And crown your love forever? (Oh)
No matter where we land (Oh)
We'll land there together (We'll land there)
Can I hold your hand (Can I hold your hand)
And crown your love forever?
'Cause you know when you know
So I won't let you go nowhere
