

Higher

Tom Grennan

I heard the music through the walls, I felt the bass, uh
I felt you here before I even saw your face
No, it ain't the bubbles, it's your wave
Sugar-coated, triple-glazed
Down there below, I see Heaven miles away, uh
Ain't scared of heights, no gravity in outer space
On another level, elevate
How ya fit me, tailor-made

Stimulated when the tempo changing
Oh, I can't explain it
Tell me, what's this feeling?

It's taking me higher
Thought we can't get higher
But we keep
Going up, going up, going up, going up, going up
(Uh)
Going up, going up, going up, going up, going up
It's taking me higher (C'mon)
Thought we can't get higher (Can't get higher)
But we keep
Going up, going up, going up, going up, going up
(Sing)
Going up, going up, going up, going up, going up

Don't know where we're going, but I'm comfortable
Feeling outta body, you can take my soul
Light speed energy, straight G-force
No bland plates when you've got hot sauce
That's facts
Never had it like that
(So bad)
No, I never go back
(So fast)
Even if we gon' crash, I'm gon' make it last

Stimulated when the tempo changing
Oh, I can't explain it
Tell me, what's this feeling?

It's taking me higher
Thought we can't get higher
But we keep
Going up, going up, going up, going up, going up
Going up, going up, going up, going up, going up
It's taking me higher
Thought we can't get higher (Can't get higher)
But we keep
Going up, going up, going up, going up, going up
Going up, going up, going up, going up, going up

Skywalk and we elevate, tonight you might make me higher
Skywalk and we elevate, tonight you might make me higher
Wait, let's elevate, tonight you might make me, oh (Ohh)

It's taking me higher

Thought we can't get higher
But we keep
Going up, going up, going up, going up, going up
Going up, going up, going up, going up, going up
It's taking me higher
Thought we can't get higher (Can't get higher)
But we keep
Going up, going up, going up, going up, going up
Going up, going up, going up, going up, going up
