

# Lighting Matches

Tom Grennan

I've had a long day, I've been walking on  
Hands in pockets, Wishing on stars I can't see  
I watch you city dreamers, left hometown believers  
Looking down at the ground like me

We're all lonely people, lonely people, alone  
Going in circles, going wherever the wind blows and it blows

But I'm lighting matches  
Making a shelter for a flame so fire catches  
Stay in the dark another day (are we alone?)  
Will it all get better (are we alone?)  
Or are we lost together  
Nah-nana-nah-nah-nana-nah  
Are we lost together  
Nah-nana-nah-nah-nana-nah  
Are we lost together

So I paint my eyes on, let conversation lie on  
It feels like I've no room for time  
Tell me which piece of you is missing  
We all got past, it exists

We're all lonely people, lonely people, alone  
Going in circles, going wherever the wind blows and it blows

But I'm lighting matches  
Making a shelter for a flame so fire catches  
Stay in the dark another day (are we alone?)  
Will it all get better (are we alone?)  
Or are we lost together  
Nah-nana-nah-nah-nana-nah  
Are we lost together  
Nah-nana-nah-nah-nana-nah  
Are we lost together

And I-I-I-I won't stand back  
And I-I-I-I won't let it burn down  
Gonna make this puzzle with a piece that doesn't fit  
There must be something more to this

So I'm lighting matches  
Making a shelter for a flame so fire catches  
Stay in the dark another day (are we alone?)  
Will it all get better (are we alone?)  
Or are we lost together  
Nah-nana-nah-nah-nana-nah  
Are we lost together  
Nah-nana-nah-nah-nana-nah  
Are we lost together
