

Lucky Ones

Tom Grennan

I was made out of nothing
You were made out of gold
From gold and nothing comes something
But together we know
Won't you lie with me, lie with me

I was made up to look bad
Like I didn't belong
And you were made up to keep out where I have come from
Won't you lie with me, lie with me

Sail away, we are the lucky ones
Sail away, together we could run
Into the deep, for all to see
Won't you sail away, where we go deep
If you lie with me, lie with me

We were made to be stronger
And we got nothing to lose
This is for one another
I've got nothing to prove
Won't you lie with me, lie with me

Sail away, we are the lucky ones
Sail away, together we could run
Into the deep, for all to see
Won't you sail away, where we go deep
If you lie with me, lie with me

I was made out of nothing
You were made out of gold
From gold and nothing comes something
But together we know
Won't you lie with me, lie with me

Sail away, we are the lucky ones
Sail away, together we could run
Into the deep, for all to see
Won't you sail away, where we go deep
And lie with me, lie with me

Sail away, we are the lucky ones
Sail away, together we could run
Into the deep, for all to see
Won't you sail away, where we go deep
Won't you lie with me, lie with me
Oh come on lie with me, lie with me
