

Make 'em Like You

Tom Grennan

More than likely, you don't even like me
But I just can't walk on by
Struck by lightning while I light my tenth one
Remind myself that I'm not high

'Cause all these other robots dancing like there's only one design
Tell them where the magic can be found
Hobbies are a rarity
The pulse, it never lies
I wanna know what's going on inside

But they don't make 'em like you no more, no more
They don't make 'em like you no more
They don't make 'em like you no more, no more
They don't make 'em like you no more
There's something about your coding
They don't make 'em, make 'em like you anymore
There's something about your coding
And they don't make 'em, make 'em like you anymore

I take a step back when you walk on over
Try to keep myself locked down
I said there's something else about you
Can you tell me what it is?
You say "come with me right now"

'Cause all these other robots dancing like there's only one design
Tell them where the magic can be found
Hobbies are a rarity
The pulse, it never lies
I wanna know what's going on inside

But they don't make 'em like you no more, no more
They don't make 'em like you no more
They don't make 'em like you no more, no more
They don't make 'em like you no more
There's something about your coding
They don't make 'em, make 'em like you anymore
There's something about your coding
And they don't make 'em, make 'em like you anymore

I'm dead alive, dead alive
Oh I'll come alive, come alive
It only takes two minutes
Get the coin out, flip it
Got to leave it up to fate

But they don't make 'em like you no more, no more
They don't make 'em like you no more
They don't make 'em like you no more, no more
They don't make 'em like you no more
There's something about your coding
They don't make 'em, make 'em like you anymore
There's something about your coding
And they don't make 'em, make 'em like you anymore

But they don't make 'em like you no more, no more

They don't make 'em like you no more
They don't make 'em like you no more, no more
They don't make 'em like you no more
But they don't make 'em like you no more, no more
They don't make 'em like you no more
They don't make 'em like you no more, no more
They don't make 'em like you no more
