

# Problems

Tom Grennan

You and I  
Always something in the way of you and I  
Got our heads in different places  
We times and we subtract but we always circle back to each other, to each other

You and I  
Called it off a thousand times  
Don't know why, we turn our feelings into fights  
'Cause we're blinded to the fact that we always circle back to each other, to each other

We're making problems, we've gotta solve them  
You know I'm howling, I'm calling, I'm calling

I don't wanna wait until the stars line up  
No, we'll both find out together  
The more we push away, the more we get tied up  
I confess I'm stuck on you  
We've been running back and forth  
No, you're mine and I've always been yours  
Oh, we're making problems, gotta solve them  
One way or another, one way or another

Me and you  
Gotta put these puzzle pieces in use  
I'm done with playing games  
Believe in what I'm saying, we'll work it out one way or another, or another

We're making problems, we've gotta solve them  
You know I'm howling, I'm calling, I'm calling

I don't wanna wait until the stars line up  
No, we'll both find out together  
The more we push away, the more we get tied up  
I confess I'm stuck on you  
We've been running (We've been running), back and forth (Back and forth)  
No, you're mine and I've always been yours  
Oh, we're making problems, gotta solve them  
One way or another, one way or another

Oh-oh-oh  
Oh-oh-oh-oh  
Oh-oh-oh  
Oh-oh-oh-oh

We're making problems, we've gotta solve them  
You know I'm howling, I'm calling, I'm calling

I don't wanna wait until the stars line up  
No, we'll both find out together  
The more we push away, the more we get tied up  
I confess I'm stuck on you (Stuck on you)  
We've been running (We've been running), back and forth (Back and forth)  
No, you're mine and I've always been yours  
Oh, we're making problems (Making problems), gotta solve them  
One way or another, one way or another

(Oh-oh-oh) One way or another  
(Oh-oh-oh-oh) One way or another  
(Oh-oh-oh) One way or another  
(Oh-oh-oh-oh) One way or another
