

Sleeping Rough

Tom Grennan

Last night I went and took a drive of underneath the city lights
They reminded me of singing, fireflies are always ringing in that Karaoke bar
When we were dancing under chairs and toasting to our future years
Oh, I blinked and it went missing and now all I do is sit and think and wonder where you are

I'm tired of all the "what if"s and "maybe"s
The curiosity is driving me crazy

I'm going back to the place where we found us
I'm gonna stay here even if the cold gets tough
'Cause I got high, high hopes that you might show up
And until you do I'll be sleeping rough
And yeah the world will turn and the rain might pour
But I don't change who I will be waiting for
'Cause I got high, high hopes that you might show up
And until you do I'll be sleeping rough

The runners, yeah, they pass me by
The school run on the '95
Said, "I've been here for days. I don't care I'm happy waiting"
If you wanna know why

I'm tired of all the "what if"s and "maybe"s
The curiosity is driving me crazy

I'm going back to the place where we found us
I'm gonna stay here even if the cold gets tough
'Cause I got high, high hopes that you might show up
And until you do I'll be sleeping rough
And yeah the world will turn and the rain might pour
But I don't change who I will be waiting for
'Cause I got high, high hopes that you might show up
And until you do I'll be sleeping rough

Sleeping rough

So if you ever find yourself looking for me
You don't need to call, you know where I'll be
Look for the sign in the corner of the street
That's where I'll be, that's where we'll meet

Back at the place where we found us
I'm gonna stay here even if the cold gets tough
'Cause I got high, high hopes that you might show up
And until you do I'll be sleeping rough
Yeah, the world will turn and the rain might pour
But I don't change who I will be waiting for
'Cause I got high, high hopes that you might show up
And until you do I'll be sleeping rough

Sleeping rough
