

# **Somewhere Only We Go**

**Tom Grennan**

Somewhere only we would know  
Somewhere only we go

Only feels like yesterday we were just kids  
We were young, where's it gone?  
Everyone would say we were misfits  
On the run, we'd take 'em on

Guess we grew up and grew apart as the years went by  
It's been so long and time's moved on  
But you've not left my mind

Are your ears burning?  
Do you feel like talking?  
Though it's been a moment  
But I know a place we could go  
Somewhere only we would know  
Somewhere only we go

Are you happy you got all that you wanted?  
Does it last or roll on fast?  
'Cause I heard it from a friend that your stars lined up  
Then I see you again  
Is it asking too much?

Guess we grew up and grew apart as the years went by  
It's been so long and time's moved on  
But you've not left my mind

Are your ears burning?  
Do you feel like talking?  
Though it's been a moment  
But I know a place we could go  
Somewhere only we would know  
Somewhere only we go

Whoa  
Whoa  
Somewhere only we go

Are your ears burning?  
Do you feel like talking?  
Though it's been a moment  
But I know a place we could go  
Somewhere only we would know  
Somewhere only we go  
Somewhere only we go  
Somewhere only we go  
Somewhere only we go  
Somewhere only we go
