

Every Little Thing

Tom Helsen

Gotta be rich enough to kiss
You 'n I gonna get close enough tonight
Gotta make sure to everyone
I'll keep you satisfied

I wanna be more than just a number
Oh, I gotta be more than just a face
I wanna be just like the ones you said
With everything in place

And I want you
And you told me
Not to worry about
Every little, every little thing
You see, it's no good for me
But you will never know, never know

I gotta be smart enough to make it
I gotta be working to the bone
I gotta be faster than lightning
So I better go

I gotta be more than just a...
I gotta put everything in place
I wanna make sure that you and everyone
Get the bourne these days

And I want you
You told me
Not to worry about
Every little, every little thing
You see, it's no good for me
But you will never know, never know

Gotta be rich enough to kiss, yeah yeah
I gonna get close enough tonight, yeah
It's gonna be stranger than fiction, oh
And now you know, ey

And I want you
You told me
Not to worry about
Every little, every little thing
You see, it's no good for me
You see, it's no good for me yeah,

And I want you
You told me
Not to worry about
Every little, every little thing
Every little thing you see
