

# All The Love Is On The Radio

Tom Jones

All the love is on the radio  
There's songs about you everywhere I go  
Are you lonesome tonight?  
Darlin', I could make you feel right

I'm sorry for the things I said that day  
Do you miss me since you went away?  
Tell me darlin', do you want to go  
To sleep in my arms again?

I've been crying since you've been gone  
I've been crazy for you all night long

All the love is on the radio  
I hear songs about you everywhere I go  
Darlin' I love you more than you know  
We'll taste sweet ecstasy  
In silence you and me

All the love is on the radio tonight

What can I do to make you come again?  
To secret places where there is no end  
To paradise  
Girl, I could make you feel nice

I've been crying since you've been gone  
I've been crazy for you all night long

All the love is on the radio  
I hear songs about you everywhere I go  
Darlin' I love you more than you know  
We'll taste sweet ecstasy  
In silence you and me

All the love is on the radio  
I hear songs about you everywhere I go  
Darlin' I love you more than you know  
We'll taste sweet ecstasy  
In silence you and me
