

Come To Me

Tom Jones

Come to me and the world will be ours tonight
Make me yours, come and hold me tight
I must have you

Come closer
Love me now and I'll give all all I've got to give
Make it soon so that I can live
And love and dream for two

I'm here and I'll stay here for at least forever more
Oh darling, can't you see
I want you loving me

I need you, come to me
And we'll walk in the sun each day
Summer will be a kiss away
Just wait and see
Oh, what a moment that will be
When you come to me

I need you, come to me
And we'll walk in the sun each day
Summer will be a kiss away
Just wait and see
Oh, what a moment that will be
When you come to me
When you come to me
