

Dancing Endlessly

Tom Jones

Sometimes we dance so carelessly
But darling, when you're dancing close to me
I'm dancing endlessly
Sometimes it seems so inconsistent
You're so resistant
But darling, let's see
How close we can come to be
How close we can be

If you'll just dance with me
Dance with me
We could be anything
You ever thought love could be
Dance with me
Come on darling, dance with me
You could feel everything
You ever thought love should be

Maybe it's not the time or place
To feel this free
We'll save this dance
Until our time is meant to be
Truly dancing endlessly

Dance with me
Come on darling, dance with me
We could be anything
You ever thought love could be
Oh
Dance with me
Come on darling, dance with me
You could feel everything
You ever thought love should be

(Dance with me)
Dance with me, my darling
(Dance with me)
You gotta keep dancing
We could be anything
You ever thought love could be
(Dance with me)
Dance with me, my darling
(Dance with me)
We'll move together
(We'll move together)
Just like a river
(Just like a river)
To the sea
(We will feel everything)
Oh, we'll feel everything
We ever thought love could be.
