

Give Me A Chance

Tom Jones

Why wait any longer, darling
Why wait in pain
Why look for something
when nothing is there
Why twist around this little finger
when you should be aware
young hearts are easily broken
when they are not handled with care
Why live on dreams
why live on dreams

Give me a chance, darling
to show you love
Say you will
say you will

Give me a chance, darling
to show you love
Say you will
say you will

You counted every single minute,
every hour
that he has been away
Meanwhile he's out there with somebody
and it makes me mad to see you this way
He's working so hard on his hard earned reputation
as the man about town???
But he can't live up to expectations
you have built up for him to knock down
Why live on dreams
why live on dreams

Give me a chance, darling
to show you love
Say you will
say you will

I don't even mind
if it's him that you really love

Give me a chance, darling
to show you love
Say you will
say you will
