Tom Jones

Ow!! Yeah ... Yeah Home grown, on the bone All the channels show the same old war zone As I walk alone in the city Makin' me an offer, now don't they look pretty New cinema Live action, all the noise of attraction beats up On the streets, the sellers do mark up Better than tellin' em off, don't stock up Shark, they don't bite All that matters is you're not here tonight And now that I wonder Am I gonna dig a hole ten feet under Under sea, under you, under we, undivided, Undecided

If I only knew
What I could do
To make you, make you love me
to make you make you love me
If I only knew
What I could do
To make you make you love me
to make you make you love me
Up north where the
snow grows colder
I travel onward 'cross the border

Looked up a girl that I once knew frozen
I found that I was chosen
To be the follower of the deity
Make myself scarce while they
come to plea bargain
for my body and soul
All the flames go
around, surround me
I won't go

I need the ozone
I wanna cuddle up
behind your backbone
I never stay long
where I'm not wanted
I fell haunted
Yo brother

Where ya gonna go Back to the warzone To break down the walls

If I only knew
What I could do
To make you, make you love me
to make you make you love me
If I only knew
What I could do
To make you make you love me
to make you make you love me
If I only knew
What I could do
To make you, make you happy
to make you make you happy

If only I knew what I should do, yeah To make you make you love me I bared my soul to the golden traces went to the forest of the holy places And now I wonder Am I gonna dig a hole ten feet under Under sea, under me, under you, under we, undivided, Undecided Yeah ... yeah [vocal breakdown] If I only knew What I could do To make you happy to make you make you happy If I only knew What I should do To make you make you happy to make you make you happy If I only knew What I could do To make you, make you love me to make you make you love me If I only knew What I should do To make you make you love me If I only knew what I should do If I only knew what I should do
