

# My Girl Maria

Tom Jones

My days of running 'round are over;  
It's time for me to settle down.  
Found myself a four-leaf clover;  
I know where I'm bound.  
I'm going home to see Maria;  
I know she's waiting for me there.  
I count the hours 'til I see her;  
She knows how I care.

Yes, I'm going home to see my girl, Maria.  
There's no-one else who loves like Maria.  
We face the troubles of the world together forever.  
We'll love each other 'til the end of time.  
Oh, yes, I'm going home to see my girl, Maria.  
There's no-one else who loves like Maria.  
We face the troubles of the world together forever.  
We'll love each other 'til the end of time.

5-bar break

I'm tired of roaming 'round;  
I'll never have a place to call my own.  
But now I know I'll kiss Maria tomorrow at dawn.  
So many things I want to tell her  
About the future I have planned,  
But when I speak of church bells ringing,  
She'll understand.

Yes, I'm going home to see my girl, Maria.  
There's no-one else who loves like Maria.  
We face the troubles of the world together forever.  
We'll love each other 'til the end of time.

Oh, yes, I'm going home to see my girl, Maria.  
There's no-one else who loves like Maria.  
We face the troubles of the world together forever.  
We'll love each other 'til the end of time.

Oh, yes, I'm going home to see my girl, Maria.  
There's no-one else who loves like Maria.  
We face the troubles of the world together forever.  
We'll love each other 'til the end of time.
