

Somebody Out There Will

Tom Jones

If you don't love her
Somebody out there will
And if you don't hug her
Somebody out there will

Now if you don't love what you got
Somebody out there will
You can believe it or not
But somebody out there will

Take some time, look inside her mind
Find out what she's about
And what it takes, for goodness sake
To make her shout, and make her feel like a woman

Every day find another way to say
That you love her so
Make a woman turn her own
Just let her know that she's your only woman

'Cause if you don't love her
Somebody out there will
And if you don't hug that woman
Somebody out there will

Kiss her nose or touch her toes
Do something sweet for her
Bite her lips or fingertips and reach for her
Don't leave her to nobody else

'Cause if you don't love her
Somebody out there will
And if you don't hug your woman
Somebody out there will

If you don't love what you got
Somebody out there will
You can believe it or not
'Cause somebody out there will

Now if you don't love her
Somebody out there will
And if you don't hug your baby
Somebody out there will

Now if you don't love what you got
Somebody out there will
You, you can believe it or not
'Cause somebody out there will

Yes, and if you don't love what you got...
