

Still A Friend Of Mine

Tom Jones

I can see by your eyes
That you still love me
And the warmth of your touch
Still feeds the fire

And your smile
Seems to say that you still want me
It's good to know
That you're still a friend of mine

All the smoky bars and miles
That came between us
Keep me prisoner in a dream
I thought was mine

Please don't go, I'll be alright
If you stay with me tonight
Please let me know
That you're still a friend of mine

All the broken dreams
And promises are gone
It's all over but
The feeling lingers on

It's enough for me to know
That you're doing fine
Let me know
That you're still a friend of mine

One more round
It's getting late, it's time to go
Come with me to the place
We used to know

Well, you're always in my heart and on my mind
Let me know that you're still a friend of mine
Please let me know
That you're still a friend of mine
