

# 'Til the End of Time

Tom Jones

I see the tears in your eyes  
And it hurts me inside  
No matter how hard you've tried  
He's broken your heart one more time

There's so much I could do  
To help you see it through  
To help you to believe in love again

If I ever had you in my arms  
I would hold you tenderly  
Feel your heartbeat close to mine  
If there was a chance for me  
I would take a care of you  
And love you 'til the end of time

I know life seems so very hard  
When your heart's been torn apart  
Tried to leave the past behind  
There's a greater love you will find

Oh, darling can't you see  
You can put your faith in me  
I'll be here for you if ever you need me

If I ever had you in my arms  
I would hold you tenderly  
Feel your heartbeat close to mine  
If there was a chance for me  
I would take a care of you  
And love you 'til the end of time

Put your heart in my hands  
And I'll do the best that I can  
I wanna be the one you turn to  
To help you carry on  
The one who would teach you  
How to love again  
How to love again

If I ever had you in my arms  
I would hold you tenderly  
Feel your heartbeat close to mine  
If there was a chance for me  
I would take a care of you  
And love you 'til the end of time

Oh baby  
I would hold you tenderly  
Feel your heartbeat close to mine  
If there was a chance for me  
I would take a care of you  
And love you 'til the end of time
