

All For Nothing

Tom MacDonald

'Cause even if the plane gon' crash, I'mma be in first class
I'mma have a good time with this
And even if the boat won't float and we all gon' sink
I'll enjoy tryna learn to swim
And even if it's all for nothing, we were on
To something, there's a lot of fights we can win
And even if we fall and plummet dust it off
Get up and we can try to do it all again

Even if I'm up against the odds, I don't give it
Even when it's me against the world, I ain't tripping
Even if the battle's uphill, chances are get killed
I'll reload and keep my finger on the trigger
Even if my bones break in both legs
I'mma run it while the wolves chase with no strength
Givin' up ain't in my DNA, I bleed? Okay
Defeat my energies to defeat the pain
I'm a big boy even when I'm outta my league
In the ring, I'm gonna swing fuck if they're bigger than me
I'd rather die on my feet the let 'em kill me on my knees
If there's oxygen, I promise I'mma breathe

'Cause even if the plane gon' crash, I'mma be in first class
I'mma have a good time with this
And even if the boat won't float and we all gon' sink
I'll enjoy tryna learn to swim
And even if it's all for nothing, we were on
To something, there's a lot of fights we can win
And even if we fall and plummet dust it off
Get up and we can try to do it all again

There's not a lotta ways to win, but I'm fighting
Even if we lose it all, least we die trying
I'm sending out a PSA, put on my grave
That if I hit a mountain, then I'm climbing
Even if I fall down on the ground
Least I can see the stars now so far out
At least there's only one way up space
I don't need a map, I got a vision, yeah
I'm a big girl even when the water's deep
I be swimming with the sharks since I was raised on the reef
I got snake's skin, bruised and the chain made of teeth
So be careful if you want it with me

'Cause even if the plane gon' crash, I'mma be in first class
I'mma have a good time with this
And even if the boat won't float and we all gon' sink
I'll enjoy tryna learn to swim
And even if it's all for nothing, we were on
To something, there's a lot of fights we can win
And even if we fall and plummet dust it off
Get up and we can try to do it all again

Yeah, I had a lotta bad days, there was lots in my way, but
Even when I lose, I win
'Cause when I go and make those mistakes and I learn I'm okay, yeah
Even when the world is grim

So go ahead and get in my way, better get in my face, yeah
Tell me I should learn to quit
And even if it is my last day, I'mma live it my way
I'mma have a good time with this

'Cause even if the plane gon' crash, I'mma be in first class
I'mma have a good time with this
And even if the boat won't float and we all gon' sink
I'll enjoy tryna learn to swim
And even if it's all for nothing, we were on
To something, there's a lot of fights we can win
And even if we fall and plummet dust it off
Get up and we can try to do it all again, yeah
