

American Flags

Tom MacDonald

My people love this country and we're under attack
They banning us, they cancel us for speaking the facts
If you man enough, come stand with us, take USA back
And every time we pull up all you're gonna see's
American flags (red-white-blue, red-white-blue)
American flags (red-white-blue, red-white-blue)
American flags (red-white-blue, red-white-blue)
And every time we pull up all you're gonna see's
American flags

I ain't never gonna pretend that I give a damn
Anybody who's offended come get it, we throwing hands
Anybody not tryna make America great again
You a punk, you a clown, better know where I stand
I'm the white boy with the middle fingers in the air dog
(We don't give a what?)
Hundred white boys gonna hold me down anywhere, dog
(We think that you suck)
My patriots the craziest
They ain't afraid of breaking fists on faces if
You really want a taste of this, no safety tip
Just aim the stick and spray the clip I pray you miss
'Cause if you don't they gon' go wacko
Automatic gun smoke like tobacco
Never hit a lady but it's pretty hard to tell if you're a girl
Or a they them theirs these that those
I ain't never gonna take a knee for the anthem, smack 'em
I don't give a damn, can't stand 'em
Gang full of randoms, fan with a handgun
Run up in your mansion, leave it all abandoned
I was raised to be brave till the grave, United States
We love the country that they been corrupting
Go woker, go broker if you ain't awake

My people love this country and we're under attack
They banning us, they cancel us for speaking the facts
If you man enough, come stand with us, take USA back
And every time we pull up all you're gonna see's
American flags (red-white-blue, red-white-blue)
American flags (red-white-blue, red-white-blue)
American flags (red-white-blue, red-white-blue)
And every time we pull up all you're gonna see's
American flags

Got that AK, AR, Draco
Leave you stankin', break your ankles
I'm not hearing what you saying
Hit the pavement, now you seeing angels
It get dangerous go against the patriots
Got all the bangers
Take a look inside my closet
You gon' see way more than hangers
Hammers like I do construction
Ammo, I'ma shoot at something
Why you think we own these guns
So we can just go do some hunting?
You must not pay close attention

Government, they want division
Only treason if you lose
I guarantee we come out winning
Let my flag fly high like eagles
I would die for all my people
You can't change me with procedures
I'm 'bout freedom, you 'bout evil
Leave you hanging from the ceiling
Like chandeliers in cathedrals
Never have the safety on
And when we run out we just reload

My people love this country and we're under attack
They banning us, they cancel us for speaking the facts
If you man enough, come stand with us, take USA back
And every time we pull up all you're gonna see's
American flags (red-white-blue, red-white-blue)
American flags (red-white-blue, red-white-blue)
American flags (red-white-blue, red-white-blue)
And every time we pull up all you're gonna see's
American flags

Every time we pull up you see stars, you see stripes
You see flags on the cars and the trucks and the bikes
Every time we pull up we go hard, we outside
We got flags on our arms that are tatted there for life
Every time we pull up we don't care if you mad
We cherish this land, the haters can get buried in rags
They set fire to old glory turning fabric to ash

But every time we pull up all you're gonna see's
American flags (red-white-blue, red-white-blue)
American flags (red-white-blue, red-white-blue)
American flags (red-white-blue, red-white-blue)
And every time we pull up all you're gonna see's
American flags
