

# Burn

Tom MacDonald

I'm 'a let that burn  
I'm 'a let that burn  
I'm 'a let that burn

Don't think about it, don't think about it, just light it  
We so high that we don't even know if we like it  
It's raining heavy, I hear it filling the pool  
I'm laying on my sofa blowing kush up at the roof  
I'm 'a let that burn, light it up, let that burn  
Yeah, I'm 'a let that burn, l-let that burn  
Light it up, let that burn, yeah, I'm 'a let that burn  
Light it up, let that burn, yeah, I'm 'a let that burn  
L-let that burn, l-l-let that burn  
Light it up, let that burn, yeah, I'm 'a let that burn

I remember that heartbreak  
I remember them broken phones  
I remember them old days, hasn't really been that long  
I remember her gold nails, and her gold chains and her gold shoes with the g  
old strings  
Gold seats to the home games, got the gold card in her own name  
And that's true  
Man, I loved it when she way stay over too late and not leave  
Purple rings on that glass table from a cup filled with codeine  
We were just a couple good kids in that big city, going broke, getting prett  
y  
Riding round, tryna get it  
Fell in love with a bitch, but we done now, fuck it

I know that I-  
I'm 'a let that burn  
I know that I-  
I'm 'a let that burn  
I know that I-  
I'm 'a let that burn

Don't think about it, don't think about it, just light it  
We so high that we don't even know if we like it  
It's raining heavy, I hear it filling the pool  
I'm laying on my sofa blowing kush up at the roof  
I'm 'a let that burn, light it up, let that burn  
Yeah, I'm 'a let that burn, l-let that burn  
Light it up, let that burn, yeah, I'm 'a let that burn  
Light it up, let that burn, yeah, I'm 'a let that burn  
L-let that burn, l-l-let that burn  
Light it up, let that burn, yeah, I'm 'a let that burn

I remember them hotels  
I remember them honey blunts  
I remember spraying hundred dollar Gucci on the walls of the room so they wo  
uldn't smell weed when they come  
Remember the laughs  
Remember the guys that were hollering at me and threatening my life  
I remember her telling me she was down for ride  
It was us versus them and she'd stay by my side  
Man, I don't really know what else though  
Pro'ly a couple things I'll forget

Few holes in the drywall  
Few scars on my neck  
Couple rings, couple shirts, couple shoes, couple thongs, couple shit that y  
ou left  
Tried to work it out like a couple times  
I guess I gotta couple regrets

I know that I-  
I'm 'a let that burn  
I know that I-  
I'm 'a let that burn

Don't think about it, don't think about it, just light it  
We so high that we don't even know if we like it  
It's raining heavy, I hear it filling the pool  
I'm laying on my sofa blowing kush up at the roof  
I'm 'a let that burn, light it up, let that burn  
Yeah, I'm 'a let that burn, l-let that burn  
Light it up, let that burn, yeah, I'm 'a let that burn  
Light it up, let that burn, yeah, I'm 'a let that burn  
L-let that burn, l-l-let that burn  
Light it up, let that burn, yeah, I'm 'a let that burn
