

## Dead 2 Me

Tom MacDonald

I don't really care about what you've done  
I don't really care about how you feel  
Dead is what you've become to me now  
Dead is what you've become to me now

Uh, how could you do it and say you knew I'd get through it  
I didn't know you were heartless and I didn't know I was stupid  
Now I'm standing in the door way, I don't wanna let you through it  
But your bags packed and my eyes black, but my attitude made you do it  
Not even sure how we started  
I picked it apart and it comes down to me being honest  
I'm angry at you, and you're mad at your father  
I think he's the reason why you are so awful  
You're harder on me because he was an artist  
And you just don't wanna end up like your mama  
The drama is coming, it's already late  
And the love has gone home and it's just me, you and hate

And that's fine 'cause I get that and I been there and I hit that  
And you lay down and I'd split that, and you'd get that shit fast like uh  
And that's fine 'cause I get that  
And I've been there and I that  
And you lay down and I'd split that  
And you'd get shit fast like uh

I don't really care about what you've done  
I don't really care about how you feel  
Dead is what you've become to me now  
Dead is what you've become to me now  
I don't really care about what you've done  
I don't really care about how you feel  
Dead is what you've become to me now  
Dead is what you've become to me now

Don't think you get it, I am different than your exes  
I'm harder than who the next is and all the men that he's friends with, you  
cannot deny it  
I'll fight and I'll win or I'll die and I'll come back and find where you li  
ve  
I'm mentally straight, not gonna break  
I always remind you to mean what you say  
And that's when she tells me that she wished that I was dead  
And I think of the shit that goes on in our bed and I say something worse th  
an the shit she just said  
And she looks at me frozen and asks if I meant that, (I did, I did, I did)

And that's fine that you get back and you not  
Believed that I said that when I thought of her  
With your legs back while I beat that shit up like uh  
And that's fine 'cause I get that, I've been there  
And I hit that and you lay down and I'd split and you'd get that shit fast l  
ike uh

I don't really care about what you've done  
I don't really care about how you feel  
Dead is what you've become to me now  
Dead is what you've become to me now

I don't really care about what you've done  
I don't really care about how you feel  
Dead is what you've become to me now  
Dead is what you've become to me now

Y'know, I sit here, I smoke this cigarette and try to think about the good times

But dead is what you've become to me now  
Y'know what? I can't sleep, y'know I haven't been able to

And I pray you're resurrected for the nighttime's sake  
My nightmares have been empty since you went away  
I sit at this piano and I talk with the Diablo and your favorite song Rihann  
a sang is in my brain
