

# Dead Inside

Tom MacDonald

I want my life with you  
I get back and she like where the hell you been?  
So I tell her hell is where I've been, babe  
Hell is where I've been baby  
She like where the hell you been?  
So I tell her hell is where I've been, babe  
Hell is where I've been baby  
Hell is where I've been baby, baby, baby, baby, baby

Don't miss me when I'm gone  
Baby, don't cry  
I think we both know that I'm dead inside  
And all of those tears fall 'til they're dry  
And I won't feel bad about another goodbye  
Don't miss when me I'm gone  
Baby, don't cry  
I think we both know that I'm dead inside  
And all of those tears can fall 'til they're dry  
And I won't feel bad about another goodbye

I can feel her here, but I'm by myself  
She knows she can call, I know it won't help  
I can hear her voice, but I'm alone  
We gave this life and made it a ghost  
I'm laying here tonight  
With the memories that I made with her  
I'm laying here tonight  
And all I got is these dirty pictures

Bad kid gone good, still worshipping the devil  
I'm just reminiscing her  
I won't go to hell 'cause I been there  
I cheated death but I been fair  
I played around with a few hoes then I played it off like I didn't care  
I've been thinking hard and contemplating if they're the realest rappers that been breathing in this air  
Thin haired rappers always cover up what's on top  
I give 'em transplants, crosshair on they bald spot  
Yeah, no effort, no effort  
Sophisticated company, ignorance on records  
It's business for pleasure  
What's pleasure? Your business  
Fuck 'em all them good girls, I want bad bitches  
Yeah, I got bad bitches  
Ah, I know bad bitches  
Uh, I know bad bitches, I know bad bitches, I know bad bitches

Don't leave me alone

Don't miss when me I'm gone  
Baby, don't cry  
I think we both know that I'm dead inside  
And all of those tears fall 'til they're dry  
And I won't feel bad about another goodbye  
When I'm back she like where the hell you been?  
So I tell her hell is where I been, baby  
She like where the hell you been?

Then I tell her, hell is where I been, babe  
Hell is where I been babe  
Hell is where, baby, baby, baby, baby

We're getting close baby, trust me I can feel it  
Like the bass at a concert when you chilling at the speakers  
If you doubt me let me leave you  
We're all believers  
I swear I give it everything and just keep the secrets to myself  
I wonder how my friends will all receive it when I burn the city down just moments before I leave it  
Couple women stole my breath away, I let 'em keep it  
They're practically living in spots I used to frequent  
Shout-out to my dudes we gon' do it 'til they love it like I love it  
Then I'll break them hearts and make 'em prove it, suckers  
I find it odd they're tryna get even  
They tryna sum it all up but it's a sequence  
So pay attention to the patterns and if Mercury or Saturn are in retrograde it will affect your balance  
I'm following the arrows  
Tossing deuces  
They just follow from the arrows that the Cupid shot  
I'm tired of the silliness, I need to pay my family back  
I'm shooting from the hip like a Ruger in the fanny-pack  
She mad I'm shooting for the stars, then I bring her the moon but I gotta leave Mars first

I don't wanna go but I have to leave you now  
You can cry if you want to  
You can touch if you want to  
You can scream if you want to  
We can fuck if you want to  
You can talk if you want to  
I can see it in your eyes  
I'm dead inside!

Don't miss me when I'm gone  
Baby, don't cry  
I think we both know that I'm dead inside  
And all of those tears fall 'til they're dry  
And I won't feel bad about another goodbye  
When I'm back she like where the hell you been?  
So I tell her hell is where I been, baby  
She like where the hell you been?  
Then I tell her, hell is where I been, babe  
Hell is where I been babe  
Hell is where, baby, baby, baby, baby

I get back and she like where the hell you been?  
So I tell her hell is where I've been, babe  
Hell is where I've been baby  
She like where the hell you been?  
So I tell her hell is where I've been, babe  
Hell is where I've been baby  
Hell is where I've been baby, baby, baby, baby, baby
