

Feel Better

Tom MacDonald

Been screwin' my life up for quite a while
I done walked through Hell so many times and went the extra miles
I remember bein' happy back when I was just a child
Then I got older, life got colder, chip on my shoulder
But givin' up ain't my style
'Cause I'mma be fine
I'mma keep fighting for happiness every day
I'mma be fine
I'mma just take all the pills that the doctor has told me to take
I'mma be fine
I'mma prove everyone wrong and I'll show all the people I hate
That I'mma be fine, I'mma be fine
And maybe one day I'll be great

I wanna feel better (Better, better, better)
I wanna fee-, wanna feel better (Better, better, better)
I wanna feel better (Better, better, better)
I wanna fee-, wanna feel better (Better, better, better)
I wanna feel better

I been hatin' on myself for quite a while
I've had some bad days hidin' behind my hoodie low and a smile
I been sortin' my heartbreak out into piles
Nowhere to throw it, closet explodin', live in the moment
Time to set this house on fire
And I'mma be fine
I won't get nowhere if I don't start runnin' today
He's on the line, how am I?
Doin' what pain did, the time wouldn't take
I'mma be fine
If you ain't on my team I'll give you something to hate
'Cause I'mma be fine, I'mma be fine
And maybe someday I'll be great

I wanna feel better (Better, better, better)
I wanna fee-, wanna feel better (Better, better, better)
I wanna feel better (Better, better, better)
I wanna fee-, wanna feel better (Better, better, better)
I wanna feel better

I just wanna feel (Better)
Why does everyone around me feel (Better)
Tonight I don't think I could feel (Better)
(Better)
(Better)
(Better, better, better, better, better)

I wanna feel better (Better, better, better)
I wanna fee-, wanna feel better (Better, better, better)
I wanna feel better (Better, better, better)
I wanna fee-, wanna feel better (Better, better, better)
I wanna feel better
I wanna fee-, wanna feel better (Better, better, better)
I wanna feel better
I wanna fee-, wanna feel better (Better, better, better)
I wanna feel better
