

Hatred

Tom MacDonald

Somebody gonna hate you
Someone thinks you're trash
They'll hate you 'cause you're white
Or they'll hate you 'cause you're black
Some people gonna hate on you for nothing that's a fact
They gonna hate you just because
They gonna hate you 'cause they can
Somebody somewhere hates you
Somewhere somebody's mad
Somebody hates the police
And the police hate them back
The students hate the teachers
And the teachers hate the class
And half of America hates American flags
It's a war we're fighting every day
They hate you 'cause you're poor
Or your skin a certain shade
They hate you 'cause you're different
And they angry they the same
They hate you 'cause they're scared to death
And you are not afraid

Go ahead and hate me, I don't give a what
I swear to God lately the whole world sucks
Everybody gone crazy, everybody nuts
But we hate them more than they hate us

Go ahead and hate me
For the person that I'm not
What you saying ain't true
You let 'em make you hate me
And they told me that you're wrong
Now I hate you too
H-A-T-E
Keep the money in the banks and the soldiers overseas
H-A-T-E
It ain't us against them when it's you against me

Somebody gonna hate you
Someone thinks you fake
They'll hate you 'cause you're gay
Or they'll hate you 'cause you're straight
Some people gonna hate on you 'cause they in so much pain
They have to tear you down to make themselves feel adequate again
Somebody somewhere hates you
Somewhere somebody's mad
People either hate Republicans
Or hate the Democrats
They'll hate 'cause you're a woman
Or they'll hate 'cause you're a man
Or they'll hate because you feel a way that they don't understand
It's a war we're fighting every day
They hate you 'cause you're dumb
Or you're Christian and you pray
They hate you 'cause you're ugly
Or you're sorta' overweight
They hate you 'cause you don't agree with everything they say

Go ahead and hate me, I don't give a what
I swear to God lately the whole world sucks
Everybody gone crazy, everybody nuts
But we hate them more than they hate us

Go ahead and hate me
For the person that I'm not
What you saying ain't true
You let 'em make you hate me
And they told me that you're wrong
Now I hate you too
H-A-T-E
Keep the money in the banks and the soldiers overseas
H-A-T-E
It ain't us against them when it's you against me

It's a plan we living in hell
They make us hate each other
Or they make us hate ourselves
Riot in the street people scream for help
The hatred run deep
We just burn it to the ground
It's all part of the plan
Why can't you tell?
The world that's in your hands
Ain't doing well
The problem isn't man
All by himself
But we don't stand a chance
Until we rebel

Go ahead and hate me
For the person that I'm not
What you saying ain't true
You let 'em make you hate me
And they told me that you're wrong
Now I hate you too
H-A-T-E
Keep the money in the banks and the soldiers overseas
H-A-T-E
It ain't us against them when it's you against me
