Look

Look, everything I said I do, I did it here
This is for the people who are wishin' I would disappear
It kills them when I win, so every time I make it crystal clear
All my people vibe is right, and you all feel a little weird

The road that I walk is loaded with bombs, come get it
The bridges I cross are gone, and I don't regret it
So follow the smoke, you know where I am, whatever
You'll die where I stand, it's Hangover Gang

Mama, I'm a icon, daddy, I'm a legend
They all say that I'm god, maybe this is heavy
Baby, I'm a time bomb, blowin' any second
Mama, I'm a icon, daddy, I'm a legend, legend

In the dark, I'm a light, I don't bark, but I'll bite, I go bump in the night
I'm the stars in your eyes, I'm the lord of the flies, more important than Christ

Can't wait 'til you congratulate me, this gon' be my biggest year
I love it when the smile is fake, I see the pain from ear to ear
I feel it when they shake my hand, the perfect shade of insincere
The type that always hated us for makin' them feel insecure

You want it so bad, you thought that you had it, we get it
Your mom and your dad just made somethin' average to get it
So follow your heart and reach for the stars, whatever
We send our regards, it's Hangover Gang

Mama, I'm a icon, daddy, I'm a legend
They all say that I'm god, maybe this is heavy
Baby, I'm a time bomb, blowing any second
Mama, I'm a icon, daddy, I'm a legend, legend

In the dark, I'm a light, I don't bark, but I'll bite, I go bump in the night
I'm the stars in your eyes, I'm the lord of the flies, more important than Christ

Success is my revenge, I did my taxes, still five milli cleared
Can't express how good it feels to see you ruin your career
The things you said still in my head, I'm keeping them as souvenirs
At one point, y'all were dear to me, and these days I still shoot a deer
End is near, lend an ear, listen close, I need to whisper
Come in tight so you can hear, I won't repeat it if you miss it
Treated me like shit for years, you deserve to see me winnin'
Dry your eyes and hide your tears, Hangover Gang forever, bitches

Mama, I'm a icon, daddy, I'm a legend
They all say that I'm god, maybe this is heavy
Baby, I'm a time bomb, blowing any second
Mama, I'm a icon, daddy, I'm a legend, legend

In the dark, I'm a light, I don't bark, but I'll bite, I go bump in the night
