

Let It Rain

Tom MacDonald

This one's dedicated to all them strippers in Vegas
Still got that dollar bill with your phone number on it, sweetie

We been partying for days
The stripper said she never seen a white boy in this place
Her ass is clapping in my face
She look back at me and say "Baby, just let it rain now."
So I just let it rain
Bunch of ones falling down from outer space
And while she's dancing in the rain
I'm just laughing, it's 5 AM and I'm way out

Come and bust it open we just out here with the homies
Smoking loud 'cause that's the notion
Bad bitches with no emotions
Sunglasses and Ibuprofen
Double cups and Oxycontin, Xanax and blue dolphins
Pulled up in the Porsche, put it in park at Palomino
Gangster party with some pussy, pass the police on the way home
Lipstick on my collar, stripper wrote her name on that dollar
With a phone number to holler, but I only fuck with real models
I guess it is a G thang, half a rack and a G string
Smoke loud 'til my ears ring, triple cup without three drinks, I'm swerving
She took me to back and closed the curtains
And then told me that she only wants to be a better person
And I'm worth it
If life's a beach then I am sure
I been looking at the ocean forever and I want more, more, more, more
Ones are falling to the floor
And I hardly ever do this so when it rains then it pours

We been partying for days
The stripper said she never seen a white boy in this place
Her ass is clapping in my face
She look back at me and say "Baby, just let it rain now."
So I just let it rain
Bunch of ones falling down from outer space
And while she's dancing in the rain
I'm just laughing, it's 5 AM and I'm way out

I got this cup full of Moesha, look like Brandie in my lap
She thick as fuck and even let me roll a grammie on her ass
I lit it up so fast, she fell in love so fast
Thought it was just the dope and the cash
'Til she started unzipping my pants
Oh man
But that ain't what a job about nigga
But that bitch can some tricks with her mouth nigga
She finished up, I hit the cup, proceeded to get up
She stepping down, said "I ain't had enough"
Ain't had to say it twice, so I proceeded to stuff hard dick in her guts 'til
I ran into her lunch
She automatic on the stick, no clutch
Such a pro with that pole, I understand why she do what she does
She bust a nut screaming out "Nigga, who do you love?!"
Tell her I get baby girl, I'm in love with the drugs
We finished up, I re-lit the blunt

Just like a thug asked her if she wanted one
She said "Nah" like dubs, goddamn

We been partying for days
The stripper said she never seen a white boy in this place
