

Let It Snow

Tom MacDonald

Well, the tide is finally turning
And Kamala's speech is slurring
Thank God we're sayin' bye to Joe

Screw the woke, screw the woke, screw the woke

And the mainstream media's dying
Their viewers shaving their heads and crying
What is a woman? Well, they still don't know

Screw the woke, screw the woke, screw the woke

They tried to stop us by taking his life
But they missed, so it's "Fight! Fight! Fight!"
The left really thought they'd beat the right
And they fought, but they lost, thank the Lord

Now January is coming
Half of Hollywood's already running
They're finding new countries to call home

Screw the woke, screw the woke, screw the woke

As the drones fill up our skies
And Ukraine still wants more dough
And the left tries to take our rights
They want us bendin' a knee, but we won't

With Diddy locked up, it's been swell
And Epstein didn't kill himself
Hunter's smokin' crack with ho, ho, hoes

Screw the woke, screw the woke, screw the woke
